Your consultation response

Please use the form below to provide your response to the consultation. The Council of Ministers is statutorily obliged to hold such a consultation for each application for marine infrastructure consent under the Marine Infrastructure Management Act 2016. Please return this form to the attention of the Case Manager—Offshore Energy Programme, 3rd Floor Government Offices, Bucks Road, Douglas, IM1 3PN.

Your response to the consultation **must**:

1. Be submitted in writing physically or electronically and clearly state your name and address, or that of the person or organisation on whose behalf you are responding.
2. Provide detailed comments on the application. This can include:
 - Clearly state whether you support or object to the application.
 - Explain the reasons for your support or objection, backed by evidence or personal experience.
 - Offer any suggestions for mitigating negative impacts or improving the project.
3. Provide a summary should your response exceed 1500 words.

Views expressed during the consultation can shape the timetable that is followed during the examination period and the issues that will be assessed. All feedback will be taken into account by the independent examining body when preparing their report and recommendations to the Council of Ministers. Therefore, by submitting a written response, you ensure your comments are considered as part of the examination process prior to the final decision being made. Further guidance on responding to the public consultation is publicly available on mima.gov.im and at 3rd Floor Government Offices, Bucks Road, Douglas, IM1 3PN.

Consent for storing submitted data

The Cabinet Office is administering the consenting process for applications made under MIMA on behalf of the Council of Ministers.

Our Privacy Notice explains why we need to collect personal information from you and how it will be used. Please read the Privacy Notice on our website mima.gov.im/privacy-notice.

Unless you outline that you would prefer otherwise, your name and comments will be made publicly available on the Government's consultation hub website. Sensitive personal information will not be published.

☐ I voluntarily give the Cabinet Office consent to process my personal data.

☐ I want my comments to be published anonymously
