1 EXECUTIVE SUMMARY

1.1 Overview

This consultation paper covers three distinct topics, however, all relate to collective investment schemes. The three topics are:

- a) Topic 1 - changes to legislation necessary to widen the definition of collective investment schemes to include a limited number of CEICs. This is necessary for the protection of the public and also to meet IOSCO principles, and consists of the draft Collective Investment Schemes (Regulated Fund) Regulations and the draft Collective Investment Schemes (Definitions) Order;
- b) Topic 2 - changes to legislation that may take place if, following a submission by the Association, the Authority determines to introduce an exemption for managers, asset managers or investment advisers to Specialist Funds, and consists of an extract of draft amendments to the Financial Services (Exemption) Regulations; and
- c) Topic 3 - draft amendments to the Collective Investment Schemes (Recognised Schemes) Ireland Order which are housekeeping in nature and simply include reference to new Regulations enacted by the Central Bank of Ireland.

1.2 What is this Consultation Paper for?

This consultation paper invites affected parties to consider the text of:

- draft Collective Investment Schemes (Regulated Fund) Regulations (Topic1);
- draft Collective Investment Schemes (Definitions) Order (Topic 1);
- draft possible exemptions for managers, asset managers or investment advisers to Specialist Funds, the draft conditions for which are detailed within the draft amendments to the Financial Services (Exemptions) Regulations (Topic 2); and
- draft Collective Investment Schemes (Recognised Schemes) Ireland Order (Topic 3).

In relation to all topics, especially Topic 2, the Authority would be grateful to receive views on whether any increase in business levels would be anticipated, and also whether any increased risk to the industry or the Island's reputation as a result of the possible exemption may be posed.

Comments should be submitted to the Authority prior to the consultation's closing date.

1.3 Who is affected by this Consultation Paper?

This consultation is particularly relevant to persons providing services to collective investment schemes, as well as to corporate service providers that provide services to closed-ended investment companies.

2 CONSULTATION PROCESS

2.1 The Authority's regulatory objectives

The Authority's regulatory objectives are set out in section 2(2) of the FSA08 as —

- (a) securing an appropriate degree of protection for policyholders, members of retirement benefits schemes and the customers of persons carrying on a regulated activity;
- (b) the reduction of financial crime; and
- (c) the maintenance of confidence in the Island's financial services, insurance and pensions industries through effective regulation, thereby supporting the Island's economy and its development as an international financial centre.

Proposals in this consultation are intended to further objectives (a) and (c).

The Authority is required to give consideration to certain factors when undertaking its role in accordance with paragraph 3 of Schedule 1 to the FSA08. The factors that are most relevant to this proposal are as follows:

Factor	Information
The need for the regulatory, supervisory and registration regimes to be effective, responsive to commercial developments and proportionate to the benefits which are expected to result from the imposition of any regulatory burden	The possible exemption for managers, asset managers or investment advisers of Specialist Funds would provide parity with some competitor jurisdictions, and may result in a new source of business for the Isle of Man funds sector. The Authority considers that the draft conditions applicable to any exemption, as set out within the draft amendment to the Financial Services (Exemptions) Regulations, are proportionate to the risks associated with this scheme type.
The desirability of implementing and applying recognised international standards	Amendments to the definition of collective investment schemes (to mandatorily include a limited type of closed-ended investment company) is required in order to comply with

Factor	Information
	principles and objectives of securities regulation issued by IOSCO, and will provide an improved level of customer protection for the public. However, the limited mandatory nature of the amendment, coupled with the ability for other CEICs to voluntarily become collective investment schemes seeks to provide proportionality, and improved choice of vehicle.
The international character of the financial services, insurance and pensions industries and their markets and the desirability of maintaining the competitive position of the Island	As detailed in the two boxes above.

The amendment to the Collective Investment Schemes (Recognised Schemes) (Ireland) Order is house-keeping in nature only and simply updates reference to legislation enacted by the Central Bank of Ireland.

2.2 Responding to the Consultation Paper

The Authority considers open dialogue with stakeholders as essential in developing its proposals and greatly appreciates comments on the topics in this document. The purpose of this consultation is to gather information, data, views and evidence, from which an informed decision may be made on the topics covered by the paper, and the content of draft proposed legislation.

Please note that your comments may not result in a change to the proposals.

The Authority wishes to encourage submission of views but requests that comments are not submitted anonymously as they will not be considered or included in the Consultation Response.

Professional bodies, trade associations and other representative groups are asked to provide a summary of the people and organisations that they represent when responding, as well as the methodology used to gain members' input.

A list of representative groups to which this Consultation Paper has been sent is shown at Appendix A.

3 PROPOSALS

3.1 Topic 1 - Extending the definition of collective investment scheme to encompass some CIECs

- 3.1.1 The former Financial Supervision Commission issued a high-level consultation during 2014 regarding a general review of collective investment schemes legislation. A further consultation was issued during 2015 which detailed those items to be progressed to the next stage of review.

Amongst the proposals outlined within the aforementioned consultation documents was the intention to broaden the definition of a collective investment scheme to include a limited number of closed-ended investment companies ('CEICs'), namely those promoted with the intention of becoming available to the public or any section of it.

The rationale for the amendment is to provide an improved level of customer protection for the public, and also to comply with the objectives and principles of securities regulation issued by IOSCO. The IOSCO principles apply equally to closed and open-ended investment companies, and in relation to, and for the protection of retail consumers.

- 3.1.2 The Authority has since engaged in informal discussion with representatives of the Regulatory Sub-Committee of the Association regarding this matter to refine the proposals.

A copy of the draft legislation is attached at Appendices B and C.

- 3.1.3 Appendix B is the draft Collective Investment Schemes (Definitions) Order showing changes in tracked form. The specific areas on which to focus are the Interpretation Article 3, and Article 5(2).

Article 3 contains many new definitions that are simply required due to updating the definition of "near cash" to match the more modern definition in other collective investment schemes legislation, however, for the purposes of CEICs the key definition is that of "closed-ended investment company".

Article 5(2)(b) specifies when a CEIC will mandatorily be a collective investment scheme, which, in brief, is where it is NOT listed on a securities market supervised by an ordinary member of IOSCO and its units are promoted with the intention of becoming available to the public or any section of it.

Article 5(2)(c) provides for a closed-ended company to elect to be a collective investment scheme voluntarily (even if it is, for example, listed, or is not promoted to the public). This election mechanism was requested by the Association.

Articles 5(3) and (4) specifies when a CEIC's units are not intended to become available to the public.

Article 5(5) clarifies that CEICs established before the coming into operation of the draft legislation will not be collective investment schemes unless they elect to be so, or they accept investments in units from the public after that date.

3.1.4 Appendix C is the draft Collective Investment Schemes (Regulated Fund) Regulations. The Authority considers that for those CEICs that are in future caught by the definition of a collective investment scheme (whether mandatorily or voluntarily), the most suitable scheme type is the Regulated Fund. Following discussion with the Association, members of the Regulatory Sub-Committee advised the Authority that combined Regulations would be preferable to separate Regulations for open-ended and closed-ended.

3.1.5 The text in Appendix C shows changes from the current Regulated Funds Regulations in red text if the changes are CEIC related, and in blue text where the changes are those required for IOSCO principle purposes (and thus apply to open-ended structures as well as CEICs). The text in black is as currently found in the Regulated Fund Regulations.

3.2 Topic 2 – Possible exemptions for managers, asset managers or investment advisers of Specialist Funds

3.2.1 The Association submitted proposals to the Authority outlining possible exemptions for managers, asset managers, or investment advisers to Specialist Funds. Acting as a manager, asset manager or investment adviser to a collective investment scheme is a licensable activity under the Regulated Activities Order 2011 – Class 3(6) and Class 3(7) respectively. Some jurisdictions, such as the British Virgin Islands, Cayman and Bermuda, permit various exemptions for the provision of such services; the Isle of Man's current offering is more restricted. The Association considers that permitting suitable exemptions will support the Isle of Man's funds sector in competing for business, and may encourage the establishment of new Specialist Funds.

3.2.2 The Authority considers that an all-encompassing exemption is not appropriate, however, an exemption conditional upon certain restrictions, may be contemplated, subject to there being a sufficient business case for the expenditure of its resources on this matter, and subject to risk being adequately addressed. Draft conditions for exemption are outlined under section 3.9(2) of Appendix D.

-
- 3.2.3 The draft exemption is contingent upon the requirement for an Isle of Man licensed Administrator to be responsible for the oversight of the Specialist Fund Exempt Person. This provides the Authority with recourse to the Isle of Man licensed Administrator regarding any compliance matters.
- 3.2.4 In addition, it is considered that an increased minimum initial investment amount of \$250,000 (or equivalent in any other currency) for those schemes utilising such an exemption will be required.
- 3.2.5 Amendment to secondary legislation, namely the Financial Services (Exemptions) Regulations 2011, would be sufficient to achieve the possible changes. This is because the provision of administration services to the Specialist Fund Exempt Person is within the parameters of Class 3(9) of the Regulated Activities Order 2011; “Providing management or administration services to a person acting as mentioned in paragraphs (1),(2),(6) or (7)”.

3.3 Topic 3 – Draft Collective Investment Schemes (Recognised Schemes) Ireland Order

- 3.3.1 Recognised Schemes are collective investment schemes authorised under the laws of other countries and which are of a type specified in an Order made by the Authority. The benefit of such Orders is that they enable the Recognised Schemes to be promoted to retail investors in the Island, so that residents of the Isle of Man can have access to a variety of investment options, including retail funds.
- 3.3.2 The CISA08 allows the Authority to make such Orders only if it is satisfied that adequate protection will be afforded to participants in the schemes covered by those Orders.

The Collective Investment Schemes (Recognised Schemes) Order 2011, replaced its 2003 equivalent, but since that date Ireland has introduced new regulations which list collective investment schemes authorised by the Central Bank of Ireland. Therefore there is a need to replace the 2011 Order, so as to keep the Isle of Man’s legislation in line with that of Ireland.

The attached draft Order (Appendix E) only differs from the 2011 Order in that it refers to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 instead of the 2003 predecessor. Technical details of Ireland’s schemes have been confirmed with the Irish regulatory authority.

The change will not represent a reduction in protection for investors in the Isle of Man as the relevant schemes will still need to be notified to the Authority and meet applicable protection requirements.

4 IMPACT ASSESSMENT

The Authority is very aware of the cost of regulation and seeks to meet its regulatory objectives with minimum negative impact.

4.1 Topic 1 - Extending the definition of collective investment scheme to encompass some CIECs

4.1.1 The mandatory extension of the definition of collective investment scheme has been specifically chosen so as to go no further than is necessary for the purposes of compliance with IOSCO principles and to protect the public – and so to reduce any unnecessary impact. The Authority’s previous consultations and discussions on this topic suggest that there are very few CEICs that will fall into this mandatory definition.

4.1.2 Furthermore, the introduction of an ability for a CEIC to voluntarily become a collective investment scheme provides the industry with added flexibility.

4.2 Possible exemptions for managers, asset managers or investment advisers of Specialist Funds

4.2.1 It is clear that the Association believes that the impact of the possible exemptions will be beneficial to the Island’s funds industry.

4.2.2 The Authority would like to understand further the anticipated benefit, especially if this is quantifiable, and there is a specific question in relation to this matter posed below.

4.2.3 The Authority is also cognisant of the fact that along with any exemption, also comes risk, and it is important that risks are mitigated. In order to mitigate risks the possible exemption applies only to the Island’s most institutional of fund types, and the increased minimum investment amount of \$250,000 further assists in preventing ‘non-specialists’ from investing in such schemes. Likewise the use of an Isle of Man Administrator with certain responsibilities also balances the exemption and provides for a form of industry oversight.

4.3 Draft Collective Investment Schemes (Recognised Schemes) (Ireland) Order

4.3.1 It is not anticipated that there will be any impact on regulated entities, investors or other persons as a result of the draft Order, which is purely housekeeping in nature.

5 QUESTIONS

Question

Question 1. General. Do you have any general comments or observations on any of the topics set out in this consultation?

Question 2: Topic 1. The Draft Collective Investment Schemes (Definitions) Order make provisions that enable a CEIC that does not meet the mandatory description of a collective investment scheme to elect to opt-in to the regime. Please provide comment as to whether, and in what circumstances, you envisage this provision may be utilised?

Question 3: Topic 1. Feedback provided following the high-level consultation in 2014 and the subsequent consultation in 2015, indicated that the number of CEICs included within the mandatory requirement would be minimal. The Authority would welcome further feedback in relation this matter.

Question 4: Topic 2. In relation to the possible exemption, the Authority considers that in order to benefit from this exemption it is important that the fund to which the SF exempt person provides services to is clearly institutional in nature. It is therefore determined that funds with a minimum initial contribution of at least \$250,000 would tend to reflect that institutional nature, whereas the standard minimum initial contribution applying to Specialist Funds (\$100,000) is less clear, especially given the effect of inflation and the passage of time since that value was originally set. Comments on this point would be welcomed, especially regarding whether the figure of \$250,000 or a lesser figure (but which is greater than \$100,000) should apply.

Question 5: Topic 2. Do you anticipate that the introduction of the possible exemption may pose increased risk to consumers / regulated entities and/or the reputation of the Isle of Man as an international financial centre? Please provide details.

Question 6: Topic 2. Please indicate whether you would utilise any exemption, and provide approximate quantitative data where possible, such as the estimated volume of business to be derived from the exemption (for example, the number of new funds, and the size and value of new business/assets under management).
Examples whereby licenced entities have lost business to jurisdictions offering a similar exemption would also be useful.

6 NEXT STEPS

Following the closure of the consultation period the Authority will publish a summary of the comments received on its [consultations webpage](#).

After consideration of views expressed in response to the consultation, in relation to Topics 1 and 3 the Authority will seek to progress the draft legislation in 2017, with the aim of it coming into operation as soon as is practical.

In relation to Topic 2, after consideration of views expressed in response to the consultation, and specifically any data provided by respondents as to the benefits and risks of taking the exemption forward, the Authority will consider whether to progress the amendment to legislation.

5. Arrangements which do not amount to a collective investment scheme under section 1 of the Act

(1) The following are not collective investment schemes -

- (a) arrangements operated by a person otherwise than by way of business;

(b) it is a closed-ended investment company and-

(i) its units are not listed or admitted to trading on a securities market supervised for the purposes of market abuse by an Ordinary Member of the International Organization of Securities Commissions; and

(ii) its units are promoted by, or on behalf of, its board in such a way that the existence thereof is intended to become available to the public or any section of it; or

(c) not without the prior consent of the Authority, it is a closed-ended investment company that does not meet the description in (2)(b) but it has nevertheless elected, by a majority of participants constituting at least 75% of the total number of votes cast, to be a collective investment scheme in the documents constituting the company.

(3) For the purposes of (2)(b)(ii) and (5)(a), if-

(a) the documents constituting the company prohibit offers to the public or any section of it and the number of participants is limited to a maximum of 49; or

(b) there is a minimum initial investment level for its units of at least US\$ 100,000,

a closed-ended investment company's units are not intended to become available to the public or any section of it.

(4) For the purposes of (2)(b)(ii) and (5)(a), and without prejudice to the generality, the following shall not be considered to be the public or any section of it-

- (a) a person, body corporate, partnership, trust or other unincorporated association whose ordinary business or professional activity includes acquiring, underwriting, managing, holding or disposing of investments, whether as principal or agent, or giving advice about investments;
- (b) any director or partner of or consultant to a person referred to in (a);
- (c) a functionary, or an associate of a functionary, to the closed-ended investment company;

- (e) a trustee of a family trust settled by or for the benefit of, one or more persons referred to in (c) or (d);
- (f) a trustee or operator of any employment benefit or executive incentive scheme, or trust established for the benefit of persons referred to in (c) or (d), or their dependents;
- (g) a government, local authority, public authority or supra - national body in the Isle of Man or elsewhere;

- (i) an individual with a net worth, or joint net worth with their spouse, greater than US\$ 1,000,000, excluding their principal place of residence.

(5) For the avoidance of doubt, and despite (2)(b), a closed-ended investment company established before the coming into operation of this Order (“that date”) shall only be a collective investment scheme if-

- (a) it accepts investments in units from the public or any section of it, or persons who are not existing holders of units in the closed-ended investment company on or after that date; or
- (b) it elects to become a collective investment scheme under 2(c) on or after that date.

Regulations 9(2), 10 and 11**SCHEDULE 2****REQUEST TO ACT, OR CONTINUE TO ACT, AS MANAGER TO A REGULATED FUND****REQUEST PROCESS****1 APPLICATION PROCESS TO ESTABLISH A NEW REGULATED FUND**

Before a fund can be established as a regulated fund the proposed manager must request the Authority's approval to act for the fund and certain information must be submitted for the Authority's consideration.

This is effectively a three stage process.

Outline Stage

This stage seeks the Authority's provisional consent to the manager acting as manager to the regulated fund. At this stage a regulated fund 'initial request' form should be submitted setting out the basic details of the fund's structure and objectives together with details of all parties involved.

Where the membership of the fund's governing body is known, personal questionnaire forms may also be submitted for the proposed members of governing body at this stage or as soon thereafter as possible.

After receipt of a completed regulated fund 'initial request' form, the Authority will consider the application in principle. This consideration may result in a provisional approval which is subject to the receipt of an acceptable regulated fund 'detailed request' form, any required additional information and a responsibility statement by the fund's governing body.

The regulated fund 'initial request' form, 'detailed request' form, personal questionnaire forms and responsibility statement must all be in the format and containing the information specified by the Authority.

Second Stage

The near final constitutional and offering documents must be submitted to the Authority together with a regulated fund 'detailed request' form containing a checklist of the disclosure requirements in the offering document and application form, supporting agreements and documents and an application fee. Where personal questionnaire forms have not been submitted for all **individual** members of the fund's governing body they must be submitted at this stage.

Third Stage

Once the Authority has reviewed the draft constitutional offering documents and related forms, and has obtained satisfactory responses to its queries (if any), the filing of the final offering document and certified copies of constitutional documents and supporting agreements and documents are required.

This should be accompanied by the responsibility statement by the regulated fund's governing body. The granting of approval will then be considered by the Authority.

Delays in submitting forms and information may delay the Authority's final consideration of a request.

If a proposed fund is at an advanced stage, an application may be processed more speedily by combining the Outline and Second stages, provided that both forms and relevant documents are filed together.

2 CHANGES TO A REGULATED FUND

The manager of a fund must request the Authority's approval to continue to act for the fund where the fund proposes to –

- (a) appoint or remove –
 - i. a member or member(s) of the governing body;
 - ii. an administrator;
 - iii. a fiduciary custodian or trustee;
 - iv. a **custodian or** sub-custodian;
 - v. an asset manager or investment adviser, or

-
- vi. promoter; or
 - (b) make a material alteration to the fund's constitutional or offering document.

To do this, the manager must complete and submit to the Authority:

- (a) a regulated fund detailed request form which clearly shows information that has changed, and
- (b) any additional information required as a result of responses to that form.

The regulated fund detailed request form and information should be submitted to the Authority as early as practicable. Where there has been a material alteration which requires a change to the fund's offering document, a responsibility statement by the regulated fund's governing body is also required.

Delays in submitting forms and information may delay the Authority's final determination of a request to continue to act as manager to a regulated fund.

3 APPOINTMENT OF A NEW MANAGER TO AN EXISTING REGULATED FUND

Before being appointed as manager to an existing fund, a manager must complete and submit to the Authority:

- (a) a regulated fund detailed request form which clearly shows information that has changed;
- (b) any additional information required as a result of responses to that form, and (c) a responsibility statement signed by the regulated fund's governing body.

The above items must be submitted to the Authority as early as practicable. Delays in submitting forms and information may delay the Authority's final determination of a request to act as manager to a regulated fund.
