
Private Healthcare on the Isle of Man

Overview

This consultation will be used to inform a new service delivery model for private healthcare on the Isle of Man.

Why we are consulting

The purpose of this consultation is to seek the views of service users, insurers, and Manx residents on the provision of private healthcare in the Isle of Man. Stakeholder views are important to shape the future delivery and to provide private healthcare services people want. As part of the review of the current private healthcare offering and ahead of refurbishment of the private patient unit and restructure we are seeking feedback, in the form of this public consultation, on the issues around private healthcare in the Isle of Man.
